

SKYWORX DGCA DISTANCE LEARNING

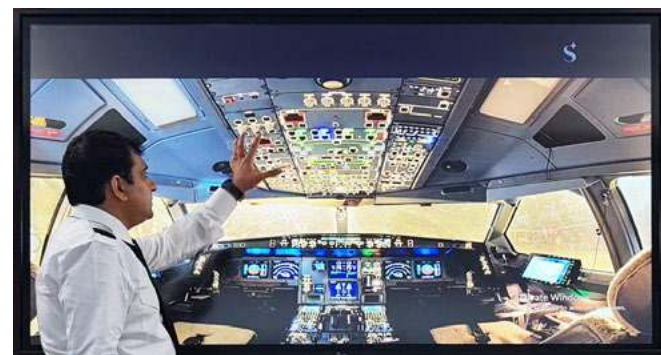

## SKYWORX DGCA DISTANCE LEARNING

The SKYWORX DGCA Distance Learning programme will enable you to begin your journey to becoming a professional pilot. The distance learning covers the theoretical element of your flight training and from there, you can then choose from a selection of flight training options to continue your journey, at Skyborne Academy Vero Beach.

Skyborne Airline Academy has experienced personnel in India and the UK who will oversee and manage your training and monitor your progress. We have designed the SKYWORX DGCA Distance Learning programme to ensure your training is delivered efficiently, allowing you the flexibility of studying at home. Our Progressive Continuous Learning approach, supported by Padpilot, provides trainees with the best start to commercial ground training and instructors offer ongoing support through our bespoke learning platform.

Over 15 weeks, trainees will receive 30 x 1 hour lessons of expert tutoring, to complement approximately 8 hours of self study each day. There is then a 3 week exam preparation course at Capt Sahil Khurana Aviation Academy (CSKAA), Sector-7, New Delhi, taken before the final course exams.

The Skyborne team has an unmatched level of experience and a track record for selecting high calibre cadets, training and placing them with some of the best airlines in the world.

### How is the programme structured?

Training is predominantly completed through supported self-study, using Padpilot CBT. Regular progress tests are taken via SKYWORX. There is also a 3 week exam preparation course taken at Capt. Sahil Khurana Aviation Academy (CSKAA) in New Delhi before the final course exams.

All subjects are studied in parallel and include AGK, Met, PoF, M&B, IN, Nav Gen, AL, Performance, FP, HP, RN, OP and CM.

### How long does the programme take to complete?

The course is completed typically in 18 weeks. This consist of 15 weeks of distance based learning (48 hours study per week) and 3 weeks of exam preparation course in New Delhi.

### What are the pre-entry requirements?

Before starting the SKYWORX DGCA Distance Learning course you must:

- Be 17 years of age at time of course commencement
- Hold a valid DGCA Class 2 Medical Certificate
- Education: 10+2 with English, Math & Physics or A higher degree in those subjects
- Must be fluent in English – both written and spoken

- Be an Indian national or Overseas Citizen of India (OCI) holder.

If applying onwards to airline programmes, academic minimums may vary?

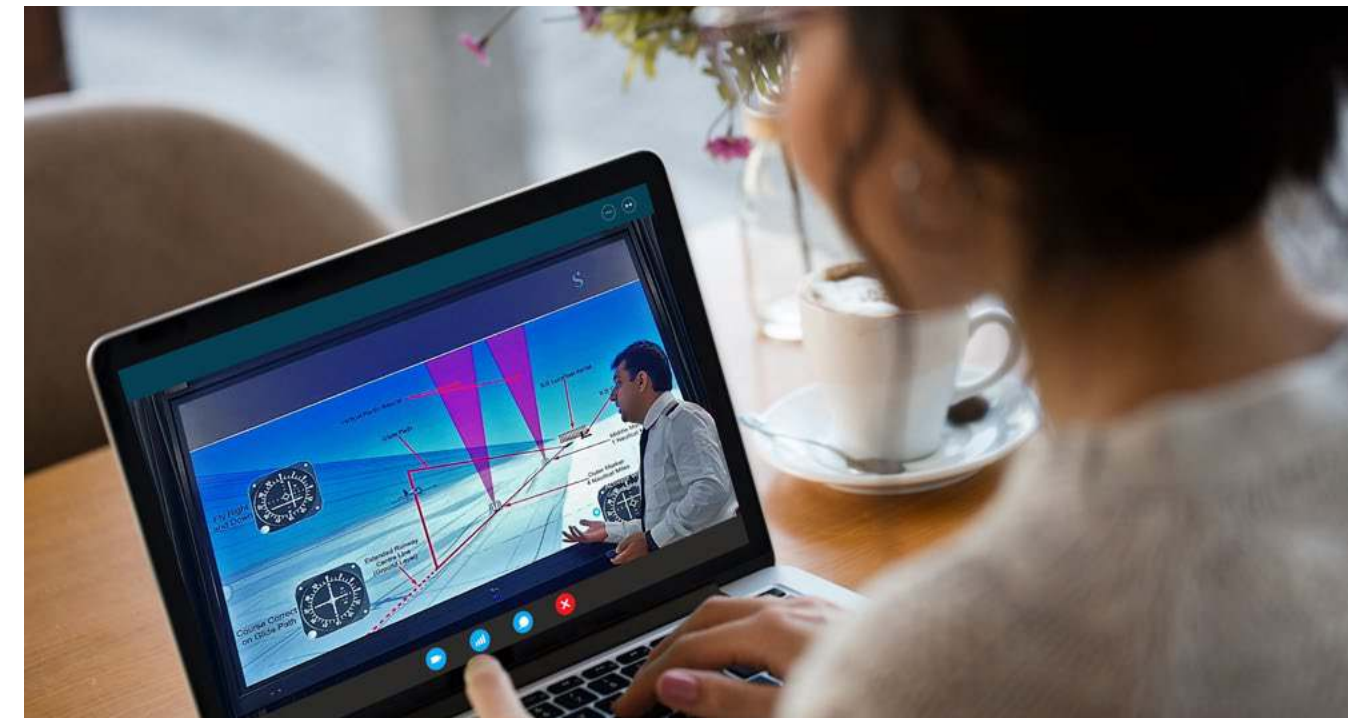

### What is the cost for the programme?

The cost for the programme is \$3,000 plus GST. This does not include

- Exams fees (INR2500 each)
- Equipment – MAC or iPad required for training programme
- Jeppesen manual
- Travel and accommodation for the 3 weeks exam preparation course at Capt Sahil Khurana Aviation Academy (CSKAA) in New Delhi

*“We have always been forward-thinking and navigated towards training tools that are innovative and most effective in the arena of pilot training. The launch of Skyworx is one such programme by Skyborne, which we believe will provide a high quality, standardized training platform required for our IndiGo cadets completing ground school. We wish the Skyworx program our very best.”*

ASHIM MITRA, FLIGHT OPERATIONS CHIEF, INDIGO
